DEAR DR. ROBERTS:

Once again, Dr. Grodin has performed an exemplary service as a military physician and representative of the Baylor medical community. Jerry has sacrificed time away from his family and private practice to serve our country. His service is most appreciated by myself and all the medical staff of Baylor University Medical Center at Dallas.

DEAR DR. ROBERTS:

I have been gone from the Baylor scene for over 12 years now and wanted to let you know that I really look forward to the news about Baylor physicians and goings on. I am sure that getting the *Proceedings* out involves a lot of work by a lot of folks, and at least one recipient is very grateful. I especially enjoy the “Facts and ideas from anywhere” that you put together. Keep up the good work!
