Note: This list (finalized on February 15, 2008) was based on submissions from medical and allied health staff and on PubMed searches. Although the list is representative of the year's publications, some articles and book chapters were undoubtedly missed, since only a small percentage of researchers responded to the request for publications. Staff are encouraged to submit their publications each year. For more information or to submit publications for this list, please contact Cynthia Orticio (cynthiao@BaylorHealth.edu).
